

LAYOUT INTERVIEW PROJECT

BEFORE YOUR INTERVIEW

Learn about the job:

- What technology?
- Investigate the website
- Read on LinkedIn

BEFORE YOUR INTERVIEW

Reduce the pressure - prepare 2 projects in advance with all the helpers we are going to use:

1. Vanilla
2. Framework

LIST OF PRIORITIES

Working smart: it means no worries:

1. Fast
2. Convenient
3. Neat
4. Impressive

(Remember you can improve things if the time permits)

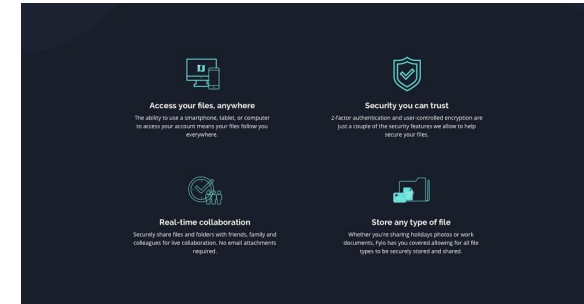

EXTRA TIPS

- * Take a look at the time
- * Work organized
- * Keep in mind your list of priorities
- * Finish at home

YOUR TASK

- * You have exactly 3 hours
- * Build a responsive wireframe layout of the entire page, using the entire design given in the PSD (photoshop document)
- * Make this section pixel-perfect 
- * Use your preferred Framework
- * Separate the layout to components
- * If time permits, try to do the whole thing Pixel Perfect.
- * When time is up – close your computers.
- * In this interview – the layout is more important than pixel perfect
